04 Workflow Mock-Up

D. Maria: Olá Assistente!

Assistente: Boa noite D. Maria. Como posso ajudá-la?

Gostava de ligar a televisão para ver a novela que vai dar na SIC.

Muito bem! É isto que pretende?

Sim, obrigado. Mas não consigo ouvir muito bem daqui, podes pôr o volume mais alto?

Sim, já está. Reparei que se encontra na sala e as luzes do quarto e da cozinha estão ligadas. Posso desligar?

Não tinha reparado! Sim, obrigado. Já agora, está um bocadinho de frio aqui na sala, podes aumentar a temperatura?

Sim, claro. Aumentei dois graus a temperatura, está bom?

Sim, obrigado.

Reparei também que está a chegar à hora em que normalmente se vai deitar e o seu aquecimento no quarto está desligado. Pretende que ligue o aquecimento?

Ah tinha-me esquecido, sim por favor.

Já está. Posso ajudar com mais alguma coisa?

Não, obrigado.

Estou aqui para ajudar. Até à próxima.

05 Functional Requirements

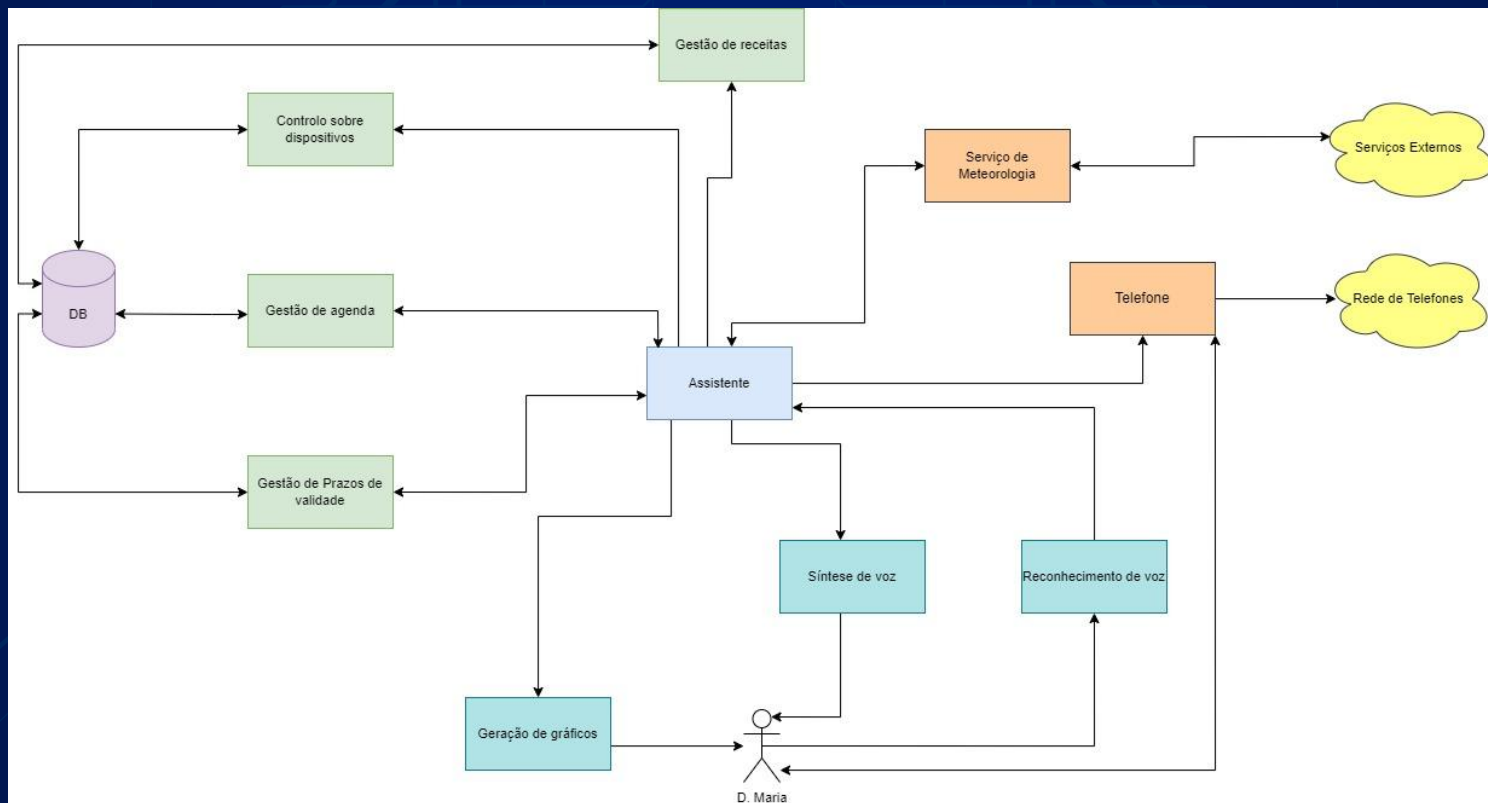

- Ability to interact with the assistant through voice;
- Ability to make calls/messages;
- TV control capability;
- Have access to recipes;
- Be aware of the expiration date of the products;
- Control of internal devices in the house;
- The assistant has the ability to transmit information to the inhabitant about the state of the devices;
- Management of an agenda;
- The assistant has the ability to warn/remind the inhabitant of important or recurring events.

06 Non Functional Requirements

- Processing unit;
- Assistant access to inhabitant location;
- Microphones and speakers;
- Camera or barcode scanner;
- Monitor device;
- Assistant availability in multiple divisions;
- Access to information outside the home;
- Voice understanding ability.

07 System Architecture

An abstract graphic on the left side of the image, consisting of a complex network of thin, light blue lines that resemble a circuit board or a digital signal path. These lines are set against a dark blue background. Several small, bright blue circular dots are scattered throughout the circuit pattern, some appearing as if they are glowing or emitting light. The overall effect is a sense of digital connectivity and flow.

END.
